## YEADON, PENNSYLVANIA

DON HIGH SCHOOL

FALL

We have had an eventful and exciting school year, replete with new and challenging experiences and important decisions. We are grateful for the dedicated support of Yeadon High School parents, staff and students.

As I view the future, you will have to be more specifically and better prepared than ever before in our national history.

Give long and serious thought to your talents, abilities and special skills! Begin to develop your career plan so that you can pursue your education or training program to enable you promptly to take your proper place in our society.

There are far too many young people spending too much valuable time and hard to earn money in aimless pursuits — with $10,000 degrees and little or no preparation for practical application to meaningful work opportunity. There will be great changes wrought in the next decade — seek advice and direction from people who study and understand the wave of the future.

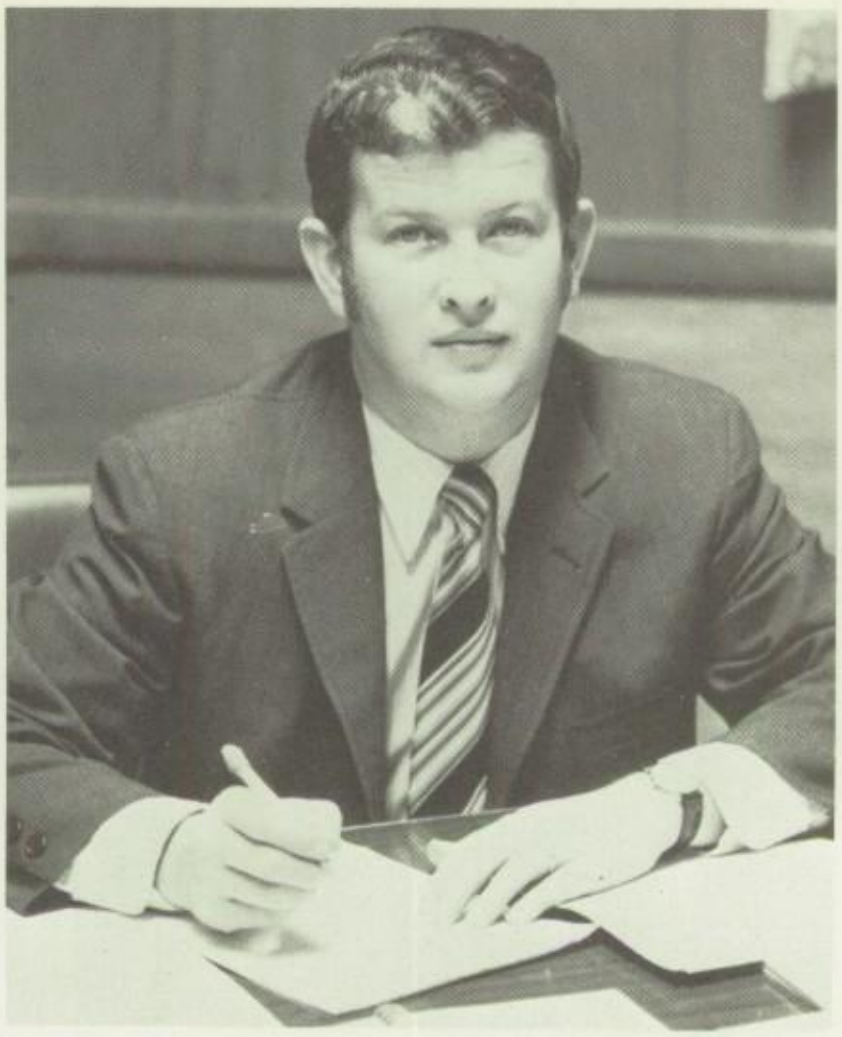
Before you leave our school I want to share with you one other thought. We are going through the most intensive era of self-criticism and social agony our country has ever experienced. It could be so destructive.

Join hands in a sincere and determined effort to understand the American way of life as a glorious opportunity for human beings who know how to make value judgments.

I firmly believe we have turned the corner and today's problems may well be prelude to a period of calm. Soon we shall learn to make use of the best rather than the most.

We are responsible for the quality of life on this earth!

Nathaniel Plafker
Supervising Principal



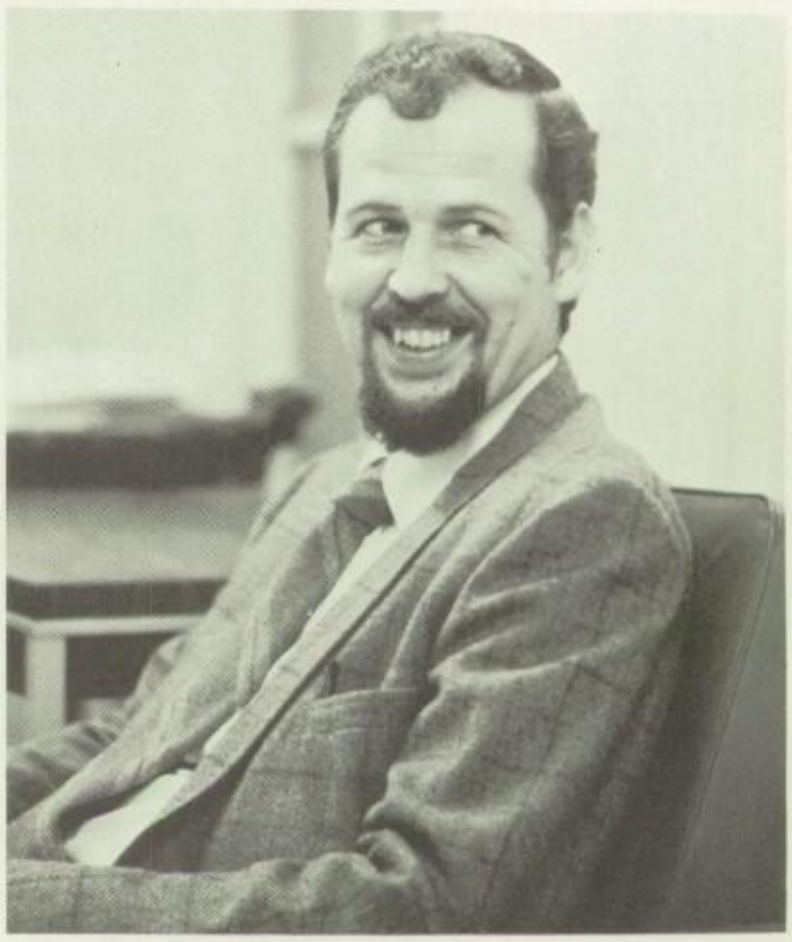
Commencement, a beginning. Yes, each member of the class of 1971 will be beginning a new phase of life during which he will have the opportunity to search new horizons, encounter new experiences, and attain greater goals.

Each of you will continue his education for the rest of his life, either formally or informally. The quality of that education will depend greatly upon your willingness to learn, your regards for the rights of your fellow man, and your determination to succeed.

Each of you should succeed if there is to emerge a meaningful society, one which is capable of sustaining life, sensitive to the needs of its people, and enabling free men to determine and attain their destinies in harmony with one another.

My best wishes are intended to each member of the class of 1971 for a satisfying and rewarding life, full of meaning and purpose, happiness and success.

William J. Nolan
Principal



Graduation from high school places you outside the protection of the public school. All of you will feel, first, a sense of freedom or relief. This will soon be followed by a realization that you are more alone than you have ever been in your lifetime. More than ever, what will happen to you will depend on your actions and decisions. No longer will your parents be able to make as many decisions for you. No longer will the public school personnel be available for guidance. You are on your own.

This is a great responsibility, and we have done our best to prepare you to meet it well. I hope you do.

Robert A. Hanson
Vice-Principal

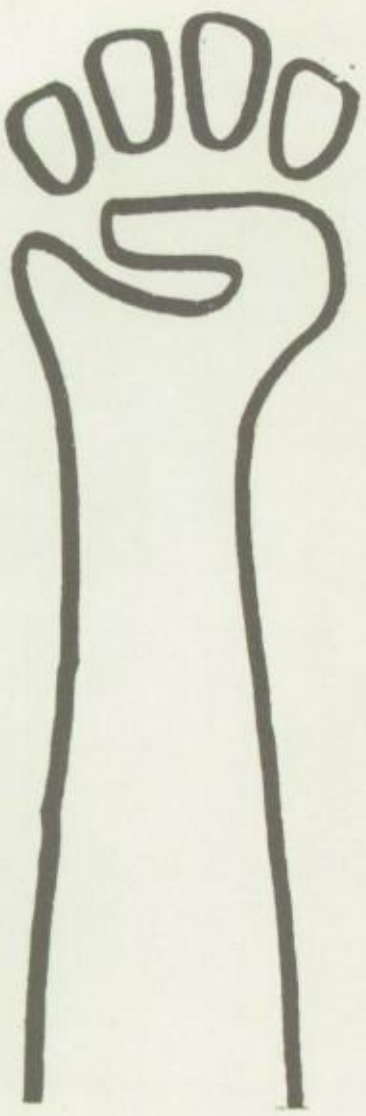
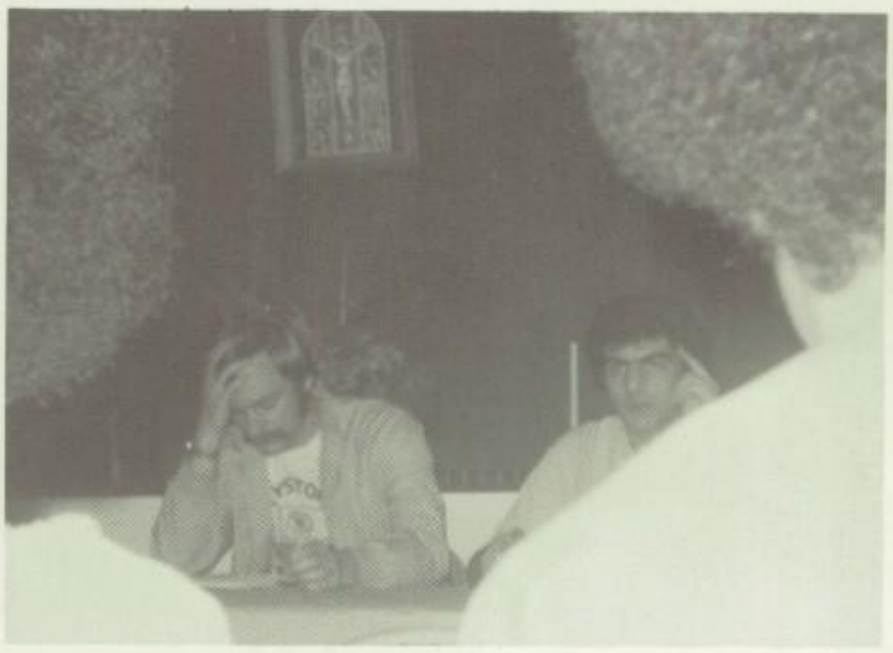
On April 21 the teachers of the Yeadon School District began a 15 day strike in an effort to obtain a settlement on a new contract. Seventy-five members of the Yeadon Education Association walked off the job thus closing the schools to the 1,300 students.





And you of all people protested!

THE BOARD

OF

SCHOOL DIRECTORS

OF

# YEADON BOROUGH

express APPRECIATION for the community's splendid cooperation with the Faculty, the Staff and the Board in making our school system one of the finest.

Greetings and Best Wishes to
the Class of 1971

# YEADON PARENT-TEACHER ASSOCIATION

★

As each year brings its group of graduates, one should keep in mind the

## Objectives of Our PTA

To promote the welfare of children and youth in home, school, church and community.

To raise the standards of home life.

To secure adequate laws for the care and protection of children and youth.

To bring into closer relation the home and the school, that parents and teachers may cooperate intelligently in the training of the child.

To develop between educators and the general public such united efforts as will secure for every child the highest advantages in physical, mental, social, and spiritual education.
